

SAY IT WITH A POSTER

ABOUT POSTERS

A poster is an alternative to the oral presentation of a paper. The poster allows authors to create a self-explanatory document, but the authors should be available to interact with viewers and answer questions. It is a highly successful form of communication when it considers the needs of the public and the authors. Posters allow more time for authors and viewers to discuss the topic, more personal interaction and exchange of professional experience, ample question time with focus on your subject, and the potential for continued display of the poster at your workplace.

PREPARATION DETAILS

Each poster presenter is assigned one space on a flat panel. Only works that have been accepted through the review process can be displayed on-site.

Poster dimensions: A1 series A - Portrait 594 x 841 mm

Please print your poster using sustainable materials (e.g. recycled paper, paper with FSC certification)
